A Manual of Mathematics

By RALPH G. HUDSON, S.B., Assistant Professor of Electrical Engineering at the Massachusetts Institute of Technology, and Harvard University, and JOSEPH LIPKA, Ph.D., Instructor in Mathematics at the Massachusetts Institute of Technology.

This collection of mathematical formulas and tables has been compiled for class-room use and for general reference. The formulas and tables are those which are used generally by students of mathematics and engineering, and are arranged in systematic order for quick reference. The text as a whole is taken from the Mathematical Section of "The Engineers' Manual."

130 pages, 5 x 7 $\frac{3}{4}$, 95 figures. Flexible binding, \$1.00 net.

NOTE:—We also publish in separate form, "A Table of Integrals" taken from this "Manual." It contains 24 pages, price, 15 cents, net.

10 DAYS FREE EXAMINATION

Copies of any of our books will be sent for 10 days free examination to members of the American Mathematical Association. You are to remit the price of the books within 10 days after their receipt, or return them, postpaid, within that time.
